| Appointment (examination) of a medical professional | | | |
|--|--|---|--|
| B01.047.005 | General practitioner consultation | 1 | |
| | Collecting verbal history of disease (complaints if any) | 1 | |
| | Determination of relative cardiovascular risk | 1 | |
| | Calculation of the body mass index based on anthropometry (measurement of height, body weight, waist circumference) | 1 | |
| | Measurement of blood pressure in peripheral arteries | 1 | |
| B04.029.001 | Ophthalmologist consultation | 1 | |
| | Measurement of intraocular pressure | 1 | |
| B04.001.001 | Gynecologist consultation | 1 | |
| A 11.20.002 A08.20.017 A08.20.017. 001 | Taking a cytological cervical smear (scraping) using a brush from the surface of the cervix (external uterine pharynx) and the cervical canal for cytological examination (hereinafter referred to as a smear from the cervix), cytological examination of a smatки (obtaining a cervical smear, cytological examination of a micro-preparation of the cervix, cytological examination of a micro-preparation of the cervical canal) | 1 | With the exception of cases when it is impossible to conduct a study for medical reasons due to extirpation of the uterus, virgo |
| B01.047.006 | General practitioner follow-up after finishing the first stage of check-up (This follow-up consultation does include follow-up examination for the detection of visual and other localization of oncological diseases, including examination of the skin, mucous lips and oral cavity, palpation of the thyroid gland, lymph nodes, in order to establish a diagnosis, determine the health group, the group of dispensary observation, determination of medical indications for examinations (consultations) and diagnostic procedures for the second stage of medical check-up) | 1 | |
| | Individual preventive counseling | 1 | |
| Laboratory tests | | | |
| A12.05.118 A12.05.119 A12.05.120 A12.05.121 A09.05.003 A12.05.001 A09.05.003. 004 A09.05.003. 002 A09.05.003. 003 | Complete blood count | 1 | |
| A12.28.011 A12.28.012 A12.28.013 A12.28.014 A09.28.003 A09.28.011 | Urine analysis | 1 | |
| A09.05.026 | Serum cholesterol, enzymatic assay | 1 | |
| A09.05.028 | LDLP measurement (beta-cholesterol) | 1 | |

| | | | |
|-------------------------------|---|---|--|
| A09.05.023 | Blood glucose, orthotoluidine or glucoxidase assay | 1 | |
| A09.05.009 | Serum C-reactive protein, precipitation reaction in capillars | 1 | |
| A09.05.020 | Serum creatinine | 1 | |
| A09.05.039 | Serum lactate dehydrogenase activity, optic test, biochemistry analyzer FP-900 | 1 | |
| A09.05.042 | Serum alanine aminotransferase activity, Riteman and Frenkel assay | 1 | |
| A09.05.041 | Serum aspartate aminotransferase activity | 1 | |
| A09.05.051.001 | D-dimers | 1 | |
| A09.19.001.001 | Occult blood test | 1 | |
| A11.12.009 | Blood withdrawal, phlebotomy | 1 | |
| Diagnostic procedures | | | |
| A05.10.001 | EKG (12-lead) with use of 6-canal manual electrocardiograph | 1 | |
| A12.09.001.006 | Spirometry with use of bodyplethysmography | 1 | |
| A06.09.005.001 | Low-dose CT pulmonary angiography | 1 | If was not performed earlier during the year в течение года |
| A04.16.001 | Ultrasound examination of the abdominal organs (complex) | 1 | |
| A04.28.001 | USG, kidney, suprarenal gland, retroperitoneal space | 1 | |
| A06.20.004 | Plain Rg-graphy of mammary gland with Rg-graphy of soft tissue of axillar region, AP, lateral views | 1 | Except in cases where it is impossible to conduct a study for medical reasons in connection with a mastectomy. Mammography is not performed if mammography or computed tomography of the mammary glands has been performed during the previous 12 months |
| A04.20.001.001/ A04.20.001 | Ultrasound examination of the uterus and appendages transvaginal / Ultrasound examination of the uterus and appendages transabdominal | 1 | Ultrasound examination of the uterus and appendages transabdominal – virgo |
